**SECTION I
INTRODUCTION
ENGINEER'S REPORT
CITY OF BRENTWOOD
CITYWIDE PARK MAINTENANCE DISTRICT NO. 98-1
FISCAL YEAR 2024-25**

Background

The City of Brentwood's General Plan includes several policies aimed at ensuring that recreational opportunities will continue to exist throughout the City and that an adequate park system will be developed to serve the entire City. In keeping with these policies, the City Council held a workshop on September 17, 1996, to review possible financing strategies for the construction and maintenance of community parks throughout the City. On March 20, 1997 staff presented a report to the City Council, which identified the use of a landscape and lighting assessment district to fund the construction and maintenance of the existing and proposed citywide park system. The improvements, which would be constructed, operated, maintained, and serviced by the benefit assessment district, would include;

*Park and recreational improvements, trail, open space, landscaping,
lighting and associated appurtenant facilities.*

Therefore, on April 17, 1997, the City Council adopted Resolution No. 97-60 proposing the formation of a Citywide Assessment District for Park Maintenance and directing the preparation of an Engineer's Report. The formation of the District ensures that those property owners who directly benefit from the improvements, specifically contribute to the operation, maintenance, and servicing of the improvements.

The primary objectives of the Citywide Park Maintenance District are to:

- Provide a source of funds for the continued high-level maintenance of existing City Parks;
- Provide for the maintenance of the Park Expansion Program identified in the General Plan; and
- Eliminate inequities regarding the funding of Park Maintenance.

Proposition 218 Proceedings

On November 5, 1996, California voters approved Proposition 218, entitled "Right to Vote on Taxes Act", which added Articles XIIC and XIID to the California Constitution. While its title refers only to taxes, Proposition 218 established new procedural requirements for the formation and administration of assessment districts. Proposition 218 also required that with certain specified exceptions, beginning July 1, 1997 all existing, new, or increased assessments comply with Article XIID.

To comply with the requirements of Proposition 218, the City implemented the following procedures:

- 1) Every property owner subject to the proposed assessment was mailed a ballot allowing the property owner to vote on whether to ratify the District. A public notice describing the total assessment, the individual property owner's assessment, and the reason for the assessment, and the general basis upon which the assessment was calculated accompanied the ballots.
- 2) Publicly owned properties (except for areas of public streets, public avenues, public lanes, public roads, public drives, public courts, public alleys, public easements and rights-of-ways, public greenbelts and public parkways, and that portion of public property that is not developed and used for business purposes similar to private commercial, industrial and institutional activities) were to be assessed, or paying their share through a direct contribution.
- 3) The City of Brentwood held a Public Meeting, March 10, 1998, and a Public Hearing, April 14, 1998, to provide an opportunity for any interested person to be heard. The ballots returned during the 45 days after mailing or before the close of the public input portion of the public hearing were tabulated to determine whether a majority protest against the assessment existed. It was found that the property owners returning ballots in favor of the assessment represented more than 50% (weighted by assessment amount), so the assessment for Fiscal Year 1998-99 and each subsequent year could be levied.
- 5) At the conclusion of the Public Hearing, the City Council of Brentwood adopted Resolution No. 98-65 confirming the Brentwood Citywide Park Maintenance District No. 98-1 (the "District") and the levy of assessments for Fiscal Year 1998-99 at a rate of \$79.00/EDU with an annual escalation factor based on the annual increase in the Consumer Price Index (CPI).

Annual Administration

In Fiscal Year 1998-99, when the rate was set at \$79.00/EDU, there were existing Landscape & Lighting Districts (LLADs) that provided revenue for the maintenance of the neighborhood parks located within their area. The LLADs consisted of 94-1, 95-2, 95-3, 95-4, 95-6, 95-7, 95-8 and 97-1. As part of the Citywide Park Maintenance District Assessment approval, it was agreed that the maximum assessment rate for these LLADs would be reduced a proportionate amount, since their neighborhood parks were to be financed by the Citywide Park Maintenance District. After the Citywide Park Maintenance District was formed there were five (5) more LLADs that were established and had a reduced maximum LLAD assessment for the parks. Starting in Fiscal Year 2002-03, it was realized that the Citywide Park Maintenance District costs exceeded the approved maximum assessment rates. Therefore, all future LLADs that were to be formed were to include consideration for the benefits and associated costs to maintain parks in the City.

Commencing with Fiscal Year 2020-21, all costs associated with parks within the City limits were to be accounted for in the Citywide Park Maintenance District and are to be funded by a combination of Citywide Park Maintenance District assessment revenues, LLAD assessment revenues, and City contributions.

Since Fiscal Year 1997-98 the maximum assessment rate has not been increased greater than the annual increase allowable pursuant to the annual change in the Consumer Price Index. Each year, the Streets & Highways Code pertaining to the “Landscaping & Lighting Act of 1972” requires a certain process to be held in order to renew the existing assessments and levy them for the current fiscal year. As required by the Landscaping & Lighting Act of 1972, this annual Engineer's Report includes: (1) a description of the improvements to be operated, maintained, and serviced by the District, (2) a cost estimate for the District, and (3) a listing of the proposed assessments to be levied upon each assessable lot or parcel within the District.

For Fiscal Year 2024-25, the maximum allowable assessment rate will be \$166.73/EDU. Assessable lots or parcels within the District will be levied according to the benefit and land use formula approved at the formation of the District and outlined in Section II, Part D of this Report. Consistent with the provisions of Proposition 218, there will be no increase above the maximum rate.

The City of Brentwood will hold a Public Hearing, on May 28, 2024, to provide an opportunity for any interested person to be heard. At the conclusion of the Public Hearing, the City Council may adopt a resolution confirming the levy of assessments as originally proposed or as modified. Following the adoption of this resolution, the final Assessor's roll will be prepared and filed with the County Auditor's office to be included on the Fiscal Year 2024-25 secured property tax roll.

Payment of the assessment for each parcel will be made in the same manner and at the same time as payments are made for property taxes. All funds collected through the assessment must be placed in a separate fund and can only be used for the purposes stated within this Engineer's Report.

SECTION II

IMPACT OF PROPOSITION 218

**CITY OF BRENTWOOD
CITYWIDE PARK MAINTENANCE DISTRICT NO. 98-1**

FISCAL YEAR 2024-25

On November 5, 1996, California voters approved Proposition 218 entitled "Right to Vote On Taxes Act" which added Articles XIII C and XIII D to the California Constitution. While its title refers only to taxes, Proposition 218 established new procedural requirements for the formation and administration of assessment districts.

These procedures stipulate that even if assessments are initially exempt from Proposition 218, new or future increases in assessments must comply with the provisions of Proposition 218. However, if the increase in assessment was anticipated in the property owner approved assessment formula (e.g., CPI increase) then the assessment increase is compliant with the intent and provisions of Proposition 218.

FISCAL YEAR 2024-25

Pursuant to the Landscaping and Lighting Act of 1972 (Part 2 of Division 15 of the Streets and Highways Code of the State of California), and in accordance with the Resolution of Initiation, being Resolution No. 2024-29, which directs the preparation and filing of the Engineer's Report, adopted by the City Council of the City of Brentwood, on March 26, 2024, and in connection with the proceedings for:

**CITY OF BRENTWOOD
CITYWIDE PARK MAINTENANCE DISTRICT NO. 98-1**

Herein after referred to as the "District", I, Eduardo Espinoza, the duly appointed ENGINEER OF WORK, submit herewith the "Report" consisting of five (5) parts as follows:

PART A: PLANS AND SPECIFICATIONS

This part describes the improvements within the District. Plans and specifications for the improvements are as set forth on the lists thereof, attached hereto, and are on file in the Office of the Brentwood City Clerk and Engineering Department and are incorporated herein by reference.

PART B: ESTIMATE OF COST

This part contains an estimate of the cost of the proposed improvements, including incidental costs and expenses in connection therewith, is as set forth on the lists thereof, attached hereto, and are on file in the City Park and Recreation Department.

PART C: ASSESSMENT DISTRICT DIAGRAM

This part incorporates by reference a diagram of the District showing the exterior boundaries of the District, the boundaries of any zones within the District and the lines and dimensions of each lot or parcel of land within the District. It has been prepared by the Engineer of Work and is on file in the Office of the Brentwood City Clerk and Park and Recreation Department. The lines and dimensions of each lot or parcel within the District are those lines and dimensions shown on the maps of the Contra Costa County Assessor

for the year when this Engineer's Report was prepared. The Assessor's maps and records are incorporated by reference herein and made part of this Report.

PART D: METHOD OF APPORTIONMENT OF ASSESSMENT

This part contains the method of apportionment of assessments, based upon parcel classification of land within the District, in proportion to the estimated benefits to be received.

PART E: PROPERTY OWNER LIST & ASSESSMENT ROLL

This part contains a list of the Contra Costa County Assessor's Parcel Numbers, and the net amount to be assessed upon the benefited lands within the District for Fiscal Year 2024-25. The Assessment Roll is filed in the Office of the Brentwood City Clerk and is incorporated in this Engineer's Report by reference. The list is keyed to the records of the Contra Costa County Assessor, which are incorporated herein by reference.

PART A

 - Electric current or energy, gas, or other illuminating agent for any public lighting facilities or for the lighting or operation of any other improvements.
 - Water for the irrigation of any landscaping, the operation of any fountains, or the maintenance of any other improvements.

DESCRIPTION OF IMPROVEMENTS

The improvements consist of the construction, operation, maintenance and servicing of park and recreational improvements, landscaping, lighting, and appurtenant facilities, including, but not limited to; personnel, electrical energy, utilities such as water, materials, contractual services, and other items necessary for the satisfactory operation of these services and improvements as described below:

Park and Recreational Improvements

Park and Recreational improvements consist of, but are not limited to operation, maintenance and servicing of parks, trails, open space, lighting, landscaping, trees,

shrubbery, sidewalks, tot lots, park equipment, playgrounds, fences, etc. including the removal of trash and debris, and other appurtenant facilities within the public park areas benefitting parcels within the boundaries of the District. For the purpose of this District three (3) types of parks have been designated: community, neighborhood, and community parks with neighborhood components. Community parks are typically larger parks that are designed with amenities to serve the City of Brentwood as described in the Parks, Trails and Recreation Master Plan originally approved on August 23, 1994 and subsequently approved on June 25, 2002 and updated on February 26, 2019. Neighborhood parks are generally smaller than community parks and typically benefit those residents located within a one-half mile radius from the park. Community parks with neighborhood park components (such as Creekside Park) are those parks with amenities which benefit the City of Brentwood but that also have localized amenities that benefit the properties within a one-half mile radius. On the following page is a listing of the community parks, community parks with neighborhood components, and neighborhood parks for which the District is responsible.

Landscaping Improvements

Landscaping improvements consist of, but are not limited to operation, maintenance and servicing of landscaping, irrigation, planting, shrubbery, ground cover, trees, pathways, hardscapes, walls, fences, and other appurtenant facilities required to provide landscaping within the public park areas benefitting parcels within the boundaries of the District.

Lighting Improvements

Lighting improvements consist of, but are not limited to operation, maintenance and servicing of poles, fixtures, bulbs, conduits, equipment including guys, anchors, posts and pedestals, metering devices and other appurtenant facilities within the public park areas benefitting parcels within the boundaries of the District.

PART B

ESTIMATE OF COST

The 1972 Act provides that the total cost of construction, operation, and maintenance and servicing of the park and recreational improvements, trails, open space, landscaping, lighting, and associated appurtenant facilities can be recovered by the District. Incidental expenses including administration of the District, engineering fees, legal fees and all other costs associated with the construction, operation and maintenance and servicing of the District can also be included.

The 1972 Act also requires that a special fund be set up for the revenues and expenditures of the District. Funds raised by the assessments shall be used only for the purpose as stated herein. A contribution to the District by the City of Brentwood may be made to reduce assessments, as the City deems appropriate. Any balance remaining on July 1 at the end of the fiscal year must be carried over to the next fiscal year unless the funds are being accumulated for future capital improvements or operating reserves.

The estimated Fiscal Year 2024-25 expenditures for the District improvements have been provided by the City of Brentwood and are estimated in Table No. 1 on the following page. For a more detailed review of the cost estimate, please refer to the City of Brentwood's budget for Fiscal Year 2024-25.

ASSESSMENT DISTRICT DIAGRAM

The boundaries of the Citywide Park Maintenance District No. 98-1 are coterminous with the boundaries of the City of Brentwood. The Diagram is on file in the Office of the City Clerk of the City of Brentwood and shown on the following page of this Engineer's Report. The assessor's parcel numbers (APN) and lines and dimensions of each lot or parcel within the District are those lines and dimensions shown on the maps of the Contra Costa County Assessor, for the year when this Engineer's Report was prepared, and are incorporated by reference herein and made part of this Engineer's Report.

Only those Parks whose maintenance responsibility is taken care of through the Citywide Park Maintenance District No. 98-1 are shown. Those Parks that are not maintained by the Citywide Park Maintenance District (e.g., HOA maintained parks, etc.) are not shown.

PART D

METHOD OF APPORTIONMENT OF ASSESSMENT

Part 2 of Division 15 of the Streets and Highways Code, the Landscaping & Lighting Act of 1972, permits the establishment of assessment districts by Agencies for the purpose of providing certain public improvements which include the operation, maintenance and servicing of landscaping, park improvements and lighting improvements.

Section 22573 of the Landscaping & Lighting Act of 1972 requires that maintenance assessments must be levied according to benefit rather than according to assessed value. This Section states:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefit to be received by each such lot or parcel from the improvements."

As a benefit-based assessment, parcels receiving benefit from improvements maintained by the District are subject to the assessment and will not be exempted if benefit is received. The improvements provided by this District and for which properties will be assessed have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the development plans and applicable portions of the City General Plan. As such, these improvements would be necessary and required of individual property owners for the development of such properties and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are a distinct and special benefit to the properties within the District. In addition, Article XIII D, Section 4(a) of the California Constitution limits the amount of any assessment to the proportional special benefit conferred on the property.

Article XIII D provides that publicly owned properties must be assessed unless there is clear and convincing evidence that those properties receive no special benefit from the assessment. Exempted from the assessment would be the areas of public streets, public avenues, public lanes, public roads, public drives, public courts, public alleys, public easements and rights-of-ways, public greenbelts and public parkways (all of which are typically not assigned an APN by the County), and that portion of public property that is not developed and used for business purposes similar to private commercial, industrial and institutional activities (such as office buildings like a City Hall, etc.). Also exempted from the assessment would be utility rights-of-ways, common areas (such as in condominium complexes), and any other property that is deemed to be unable to develop by the City. These types of parcels do not benefit from the improvements.

Quantification of Benefit

The Citywide Park Maintenance District enables the City to meet the goals of the Parks, Trails and Recreation Master Plan and the General Plan in terms of expanding the park system and continuing to provide a high level of maintenance. The attainment of these goals represents a significant investment by the community, which will constitute permanent and special benefit to the owners and future owners of the property within the District. Specifically, the park expansion and maintenance program provide the following special benefits to all properties:

- 1. Centrally located swimming pool/park complex.** A swimming pool complex, adequate for both recreational and competition use, is a park improvement that various user groups identified as a serious community need. The general vicinity of the Park/School as shown on the General Plan, located very close to a significant portion of the development, and developing properties in Brentwood, made an excellent location for the pool complex due to its central location. Combined with the elementary school to the north and the opportunity to maximize land use by jointly developing the park and school area, the Family Aquatic Complex presents a unique opportunity to serve the majority of the residents of Brentwood.

The swim complex caters to the needs of all residents by providing a competition pool, tot pool and a recreation pool. The building which houses the locker rooms and restrooms has been designed to accommodate expansion capabilities to include several multi-use rooms. The Aquatic Complex and adjacent parks currently meet most of the recreational needs and a majority of the identified missing amenities close to the City's population center. With a flexible expansion plan the complex will be able to adapt to the needs of future residents and aging population.

- 2. First-rate sports complex.** The 1996-2001 Capital Improvement Plan included a Master Plan project for Sunset Park. Through discussions with the various user groups, it was made clear that previously there were not enough quality play fields available for the different sports venues vying for the limited improvements. The 2004 expansion of the facility and addition of more play fields and improvements brought this park to a community park standard and now provides a premiere recreation and sport field complex which maximizes the land and improvements by combining similar uses.

The finished park is a major sports complex for Brentwood providing a state-of-the-art series of highly maintained sports fields for organized sports. These improvements are of benefit to youth and to adults, the latter through community softball and soccer leagues available to residents, churches, lodges, public agencies, and businesses.

- 3. Non-organized recreational opportunity leagues.** Individuals and groups other than organized sport teams use park and recreation improvements. Improvements at both community and neighborhood park levels provide active recreational opportunities for adults, children, senior citizens, organizations, families, businesses, and public agencies alike.

4. Passive recreational opportunities. The Citywide Park Maintenance District funds maintenance for neighborhood parks, which provide improvements closer to individual neighborhoods other than those for community sports and recreation programs. The Brentwood Parks, Trails and Recreation Master Plan development guidelines for the development of Neighborhood Parks are as follows:

- typically vary from 5 to 7 acres,
- serve a one-quarter to one-half mile radius and serve 1,000 to 2,000 people,
- are square to rectangular in shape, level topography,
- are accessible to trail system, front on one or two public streets, and provide pedestrian access,
- are universally accessible that meets or exceeds ADA guidelines,
- have play areas for children 2-5 years and children 6-12 years,
- have informal play fields, pathways, picnic areas and pathway lighting, and
- have street parking and bike racks (onsite parking generally not required).

Adults of all ages, youth, school children, senior citizens and the physically challenged all benefit from the serenity that a visit to the park may bring. Activities such as bird watching, reading, leisurely walks, sketching, painting, observing nature, or perhaps watching a youth sporting event may be enjoyed by all members of the community.

5. Better looking neighborhoods. Neighborhood and community parks improve the appearance of neighborhoods in which they are located. Lack of maintenance has the opposite effect.

6. An improved community image. Last but certainly not least, the existence of a well-maintained park makes the community a better place to reside and to work.

In order for the City to allocate the costs of these improvements and to levy assessments, Proposition 218 requires the costs associated with general and special benefits for these improvements be separated, and so an analysis of the park and recreational improvements was conducted. The analysis reviewed the purpose and users of the parks, and then identified the properties both within and outside the City that benefit from the improvements, and then allocated the costs to maintain, service, and replace the park improvements to each identified property using an Equivalent Dwelling Unit (EDU) methodology.

Costs associated with general benefits or special benefits assigned to properties (both within and outside the City) not in the District are to be paid for by the City. Only the costs associated with the special benefits conferred on property within the District from the authorized improvements are assessable, and therefore assessed herein. A summary of the analysis used to quantify and separate the special and general benefits and allocate the costs associated with the special benefits conferred to property by the park improvements is described below.

General Benefit

The City of Brentwood's General Plan policy is aimed at ensuring that recreational opportunities will continue to exist throughout the City and that an adequate park system continues to be developed and maintained to serve the City. In keeping with these policies, the City Council formed this District for park maintenance in 1997 to secure a funding mechanism for a portion of the costs to maintain and operate the park and recreational improvements within the City. In addition, LLADs were also established to fund parks and recreational costs associated with each benefiting property for the community and neighborhood parks.

There are 99 Parks spread throughout the City serving a population of approximately 65,000 residents. Community and neighborhood parks provide a special and direct benefit to the parcels within the District. Park improvements confer benefits to properties such as:

- Enhanced recreational opportunities, including baseball, soccer, swimming, basketball, walking, jogging, etc. and the use of improvements such as: picnic tables, barbequing, playground equipment, community center rooms, etc.
- Promotes health and wellness through physical activity.
- Provide for more aesthetically pleasing neighborhoods.
- Creates an overall improved and healthier community image.
- Provides civic and social meeting places.
- Strengthens community identity and sense of place.
- Increases vitality and distinctiveness of developments and the City as a whole.
- Enhancement of community character, attractiveness, and desirability of the surrounding property.

Furthermore, if these park improvements were not installed, property within the District would not look as appealing to property owners, prospective property buyers, and patrons alike, which would adversely affect the value of their property.

Based on the Parks and Economic Development Report published in the American Planning Association, homes adjacent and near parks and open space are typically valued at 8-20% higher than comparable properties, with positive price effect declining to zero about ½ mile away. Therefore, park improvements provide a special and direct benefit to property located within ½ miles of park improvements.

Furthermore, the Brentwood Parks, Trails, and Recreation Master Plan development guidelines as previously referenced herein, states that, neighborhood parks should service residents within a ½ mile +/- radius or approximately 1,000 to 2,000 people. The City maintains on average one neighborhood park per 800 residents. In addition to the special and direct benefits the property owners receive within the City from these enhanced park improvements, there are also some incidental benefits received by residents located from outside the City that may utilize the City's community and neighborhood parks. Even though these are incidental benefits, they must be accounted for and cannot be assessed to the properties within the Districts.

Based on park user data, it is conservatively estimated that approximately 95% of the benefits associated with community parks are of benefit to property within the City and 98% of the benefits associated with neighborhood parks are of a special and direct benefit to properties within ½ mile distance (+/-). Therefore, 95% of the costs to annually operate, maintain, service and replace the community parks and 98% of the costs to annually operate, maintain, service and replace the neighborhood parks would be a special and direct benefit to the parcels within the City, and 5% and 2%, respectively of the annual costs to operate, maintain, service and replace the parks would be a general benefit.

Special Benefit

The total operation, maintenance and servicing costs associated with special benefits conferred on property within the District for the park and recreational, trail, open space, and associated appurtenant facilities are apportioned in accordance with a methodology that was developed by the engineering consulting firm of Leptien, Cronin, Cooper, Morris & Poore, Inc. when the District was formed in Fiscal Year 1998-99. The methodology is summarized below:

The City’s maintenance effort is of special benefit to all property within the City that will presently or in the future, be occupied by people who have or will have the opportunity to use the City’s park and recreation improvements. Intuitively, park and recreation improvements are primarily for the benefit of the residential community and the special benefit received by commercial, industrial, agricultural, and institutional land use is less.

This underlying benefit accrues to the land and relates to the permanent nature of certain improvements. It also relates to a parcel’s size in that parcel size is a measure of future land use. The minimum level of maintenance required to preserve park and recreation improvements in Brentwood is 15% of the Mode 1 maintenance cost (in Fiscal Year 1997-98 dollars) (see Table No. 2). Accordingly, the estimated benefit received by an unimproved parcel of land with development potential is 15% of that received by an improved parcel, equal in size. This assumes no use of the improvements.

Table No. 2 Park Maintenance Service Levels	
Mode 1	\$10,000 per acre
Mowing Interval	3 to 5 working days
Aeration	4 times per year minimum
Weeding	99% weed free
Fertilizing	3-4 times/year
Litter Control	Once per day minimum

Increased levels of maintenance on the other hand are required to support increased use. For example, turf areas, ball fields, flowerbeds, and shrubs need increased service based upon traffic. The swimming pool complex maintenance effort is dependent upon the number of persons who use it. This increased level of maintenance improves the quality of life for residents and employees of businesses throughout Brentwood. Increased use of Park and Recreation improvements require increased levels of maintenance. Thus, the

remaining 85% of the benefit received by a parcel is related to its use. A parcel's benefit relates to the number of people who may enjoy park and recreation improvements. It is important to note that user benefit is measured in terms of opportunities which the park or recreational improvements provide, and not in terms of actual use.

Zones of Benefit According to Proximity of Improvements

As mentioned in Section II, Part A, of this Report, there are three types of Parks being maintained by the Citywide Park Maintenance District: community parks, neighborhood parks, and community parks with neighborhood components. The benefit that a parcel of land receives from a community park is unrelated to a parcel's location because access to this type of facility is typically reached by motor vehicle and onsite parking is provided for this purpose. However, neighborhood parks and improvements are within walking or bicycle distance of the neighborhoods that they serve, and onsite parking is not typically provided. The City of Brentwood Park Master Plan identifies the maximum distance to a neighborhood park facility to be approximately one-half mile.

All property within the District benefits from community park improvements. Therefore, when calculating the assessment amount, all parcels are considered to be in the Community Park Zone. According to the Brentwood Parks, Trails, and Recreation Master Plan development guidelines, properties within the District that lie within a ½ mile (+/-) of neighborhood park improvements are deemed to benefit because the park is within walking or bike riding distance from the property. Those parcels, which are located within this radius, receive benefit from both community and neighborhood park improvements and are located within a Neighborhood Park Zone. While one-half mile is the general guideline for benefit, this distance has been adjusted slightly to reflect topographic and subdivision boundaries or major roadways. Hence, the Neighborhood zone line may be slightly more than one-half mile from some parcels.

Assessment Methodology

The method for spreading the costs to each parcel is based upon the utilization of an Equivalent dwelling Unit (EDU) factor. As a benefit-based assessment, parcels receiving benefit from improvements maintained by the District are subject to the assessment and will not be exempted as long as benefit is received.

The methodology used to assign EDUs to land uses in proportion to the benefit they receive relative to the single-family residential parcel is explained in this part of the report and a detailed listing per Contra Costa County land use codes is shown in Appendix "A".

- ***Single-Family and Condominiums***

Since the developed single-family parcel represents over 90% of the total parcels within the City, it is used as the basic unit and is defined as **1.00 EDU**. Developed single-family parcels are defined as parcels that have a land use classification as single-family residential with the Contra Costa County Assessor's Office and are located within the boundaries of the District. Also included in this category are condominiums or town homes, which also receive a rate of **1.00 EDU** per parcel. Unimproved single-family parcels are assessed at **0.15 EDUs** per parcel.

The assessment for *common areas* associated with residential and commercial condominiums is included in the assessment for the various condominium units and the common area parcels are, therefore, not assessed.

- **Multi-Family Residential**

Multi-family parcels such as apartments and duplexes generally have more units per acre than do single-family developments, and the cost per multi-family unit to maintain park and recreation improvements, on average, is less than single-family detached parcels. On the other hand, multi-family parcels have less yard area and recreation space per unit than do single-family units and there is, on average, an increase per residential unit in the need for park and recreational improvements. In other words, increased density results in a reduction in the cost per dwelling unit to provide park and recreation improvements.

Therefore, the benefit for a multi-family residential unit is equal to 80% of a single-family unit, or **0.80 EDUs/unit**. Multi-family parcels are defined as parcels that have a land use classification as multi-family, which includes duplexes, triplexes, apartments, etc., with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

Unimproved multi-family parcels benefit from the fixed improvements. This benefit, however, is far reduced when compared to improved land. Unimproved multi-family land will be assessed at 15% of the average single-family lot as shown below:

$$= 0.15 * LA/0.22 \text{ where: } LA = \text{land or lot area (in acres) and } 0.22 \text{ is the average lot area for a single-family residential parcel.}$$

- **Mobile Home Parks**

Mobile Home Parks are considered similar in benefit to multi-family parcels and are **0.75 EDUs/unit** due to their reduced population density and size of structure relative to the typical single-family residence. Mobile home parcels are defined as parcels that have a land use classification as mobile home by the Contra Costa County Assessor's Office and are located within the boundaries of the District.

- **Improved and Unimproved Commercial Property**

Non-residential properties such as commercial properties also benefit from park and recreation improvements. The special benefit arises from the opportunity for employees to utilize the park and recreational improvements, which make Brentwood a better place in which to live and work. The availability and opportunity to use recreational sport fields, picnic improvements, community buildings, and to enjoy the natural relief that parks create within the paved urban environment make Brentwood a better place to live and to work. This increase in the day-to-day quality of life is of significant value in attracting top quality candidates for employment to live and work in Brentwood.

A commercial parcel's benefit is based upon the underlying land benefit and upon parcel use. Employee benefit is less than residential benefit because a significant opportunity to use these improvements occurs on weekends and on holidays when employees are

typically not at work. It is reasonable to assume that for commercial properties the opportunity to use and benefit from these improvements is approximately 25% of that for residential properties. Assuming equal residential and employee densities, and that an average residential dwelling unit has 1,800 square feet, the number of EDUs for commercial property may be calculated as:

$$= 0.15 * 0.25 * LA/0.22 + 0.85 * 0.25 * BA/1,800 \text{ where: LA = Lot Area in Acres. BA = Building Area in Square Feet}$$

For example, the EDUs for a 3,000 square foot store on a 10,000 square foot (0.23 acre) lot would be calculated as follows:

$$\begin{aligned} &= 0.15 * 0.25 * 0.23/0.22 + 0.85 * 0.25 * 3,000/1,800 \\ &= 0.04 + 0.35 = 0.39 \text{ EDUs} \end{aligned}$$

For a developed commercial parcel that the building area is unknown it is assumed that the building area is equal to the lot area times the County Assessor's estimate of the percentage of the lot that is developed times 30%. If the parcel is known to have buildings, but the building area and the percentage developed are unknown, the building area has been conservatively estimated as 15% of the lot area.

For vacant commercial parcels, the EDUs are calculated using the Lot Area component only.

• ***Improved and Unimproved Industrial Property***

Industrial enterprises employ on average, fewer persons per acre than commercial land users. For the purpose of determining the relative benefit received, it is reasonable to assume that employee density for industrial land use is 50% that of commercial land use and that benefit for industrial use is proportionately the same. The number of EDUs for this type of land use is therefore calculated as:

$$= 0.15 * 0.125 LA/0.22 + 0.85 * 0.125 * BA/1,800$$

For example, the number of EDUs for an 8,700 square foot building on a 43,560 square foot (1.0 acre) lot would be calculated as:

$$\begin{aligned} &= 0.15 * 0.125 * 1.0/0.22 + 0.85 * 0.125 * 8,700/1,800 \\ &= 0.09 + 0.51 = 0.60 \text{ EDUs} \end{aligned}$$

Building areas, if unknown, are estimated at 30% of the percentage developed as shown on the County Assessor's roll. If the percentage developed is unknown, and buildings are known to exist, the building area is estimated to be 15% of the lot area.

For vacant industrial parcels, the EDUs are calculated using the Lot Area component only.

- **Agricultural Land**

Larger vacant parcels and rural land have some benefit from fixed improvements. This benefit, however, is far reduced when compared to improved land. Unimproved land will be required to dedicate streets and public improvements, and some of the land will never develop. Assuming that 10% of the land will develop within the life of the improvements at a density of 2 dwelling units per acre, the EDUs for this type of land use can be calculated as:

$$= 0.15 * 0.10 * LA/0.50$$

As an example, the number of EDUs for a 20.0-acre agricultural site with no dwelling units is calculated as:

$$\begin{aligned} &= 0.15 * 0.10 * 20.0/0.50 \\ &= 0.60 \text{ EDUs} \end{aligned}$$

Residential dwelling units on agricultural sites of 10 acres or less are assessed a single EDU, with the assumption that a rural residential parcel of up to 10 acres receives essentially the same benefit as an SFR lot. Any agricultural land over 10 acres is assessed in the formula above.

- **Public Properties & Private Institutional Property**

Churches, lodges, non-profit land uses and publicly held parcels of land benefit from some park and recreational improvements, but to a lesser extent than residences or businesses. Public and institutional properties function similarly as commercial properties in the community by providing a service, employing people, and attracting patrons. Therefore, when estimating the benefits received by a public parcel, they are paralleled by the benefits received by commercial parcels.

An improved public or institutional agency benefits from the day-to-day user benefits provided by park and recreation improvements but not from appreciation in value of vacant land or open space. A public agency or institution is, therefore, assessed based upon the improved land and building area only for a similar commercial, industrial or agricultural use. The EDUs for public and institutional use may be calculated as:

$$= 0.15 * 0.125 * ILA/0.22 + 0.85 * 0.125 * BA/1,800$$

where, ILA (improved land area) = percentage developed * area in acres

For example, the EDUs for a 10,000 square foot church on a 3.0-acre lot, at 50% developed are:

$$\begin{aligned} &= (0.15 * 0.125 * ((0.50 * 3.0)/.22)) + (0.85 * 0.125 * 10,000/1,800) \\ &= 0.128 + 0.590 \\ &= 0.718 \text{ EDUs} \end{aligned}$$

Parks and public open space do not benefit from the maintenance of these sites, much the same as streets do not benefit from street maintenance. The maintenance is performed for and the benefit accrues to the surrounding properties. Lands, which are

designated as unbuildable by the Contra Costa County Assessor, are treated as open space, and are not assessed.

Public streets, rights of way, utility easements, railroad tracks, do not benefit and have not been assessed.

The area of a public building, if unknown, is estimated at 30% of the percentage land occupied as determined by the County assessor. If the percentage developed is unknown, then the building area is estimated at 15% of the gross parcel area.

Vacant public land and parklands do not benefit from park and recreational improvements and have not been assessed.

Calculating Your Assessment

The net cost of the improvements has been distributed to the various lots, pieces, and parcels of land within the District in accordance with the special benefits estimated to be received respectively by each parcel. The method used to calculate the assessment for each parcel is as follows:

- Step 1** - Each parcel is identified as being either within the Community Zone or both the Neighborhood and Community Zone. All parcels within the City benefit from community parks and are in the Community Zone. Those parcels located within a ½ mile radius of a neighborhood park are also in the Neighborhood Zone.
- Step 2** - Each parcel is assigned a classification such as SFR (single-family), MFR (multi-family), etc., by the Contra Costa County Use code assigned to the parcel.
- Step 3** - EDUs for each parcel are calculated based on the classification of the parcel (see Appendix “B”).
- Step 4** - The EDUs for parcels which are only located within the Community Zone are multiplied by 0.5697, to reflect the reduction in assessment for not benefiting from the Neighborhood Parks.
- Step 5** - An assessment amount is calculated by multiplying the EDUs * \$166.73.

Adjustment of Assessments

Any property owner who demonstrates that the amount of their assessment is in error as a result of incorrect information being used to apply the foregoing method of spread, may file a written appeal with the Director of Parks and Recreation. Any such appeal is limited to correction of an assessment during the then current or, if before July 1, the upcoming fiscal year. Upon the filing of any such appeal, the Director of Parks and Recreation shall promptly review the information provided by the property owner and if he/she finds that the assessment should be modified, the Director of Parks and Recreation shall have the authority to make the appropriate changes in the assessment roll. If any such changes are approved after the assessment roll has been filed with the County for collection, the Director of Parks and Recreation is authorized to refund to the property owner the amount of any approved reduction if the District reserve is adequate. Claims against the City for adjustments not granted by the Director of Parks and Recreation shall be governed by the City’s written claim procedures under the Tort Claims Act (Government Code Section 810 and following).

CPI Increase

The City proposes to continue the assessment at amounts no greater than their current levels, annually indexed for inflation according to the Consumer Price Index (CPI). In any given year, the maximum amount of the assessment will not exceed the amounts for the various land use codes shown in this report adjusted for inflation as determined by the CPI.

For Fiscal Year 2024-25 the allowed maximum rate is \$166.73/EDU. The CPI at the publishing of this report increased 2.80%, based on the comparison of the 2022 and 2023 CPI (December to December) figures. Therefore, the rate has been calculated as follows in Table No. 5.

PART E

PROPERTY OWNER LIST & ASSESSMENT ROLL

A list of names and addresses of the owners of all parcels, and the description of each lot or parcel within the Citywide Park Maintenance District No. 98-1 is shown on the last equalized Property Tax Roll of the Contra Costa County Assessor, which by reference is hereby made a part of this report.

This list is keyed to the Assessor's Parcel Numbers as shown on the Assessment Roll, which includes the proposed amount of assessments for Fiscal Year 2024-25 apportioned to each lot or parcel. The Assessment Roll is on file in the Office of the City Clerk of the City of Brentwood and is shown in this Report as Appendix "B".
