

Attachment 2

Council Direction from the October 10, 2023 City Council Meeting with Staff Updates to each item:

Council Direction	Staff Update
<p>1. Include the statement or revise as needed: The City of Brentwood Adaptive Recreation program provides opportunities for youth and adults of all ages and abilities. We offer a wide variety of programs that promote socialization, skill development and physical activity. Staff provides advocacy and inclusion support for individuals with diverse abilities to participate in other recreational activities that the City of Brentwood has to offer.</p>	<p>This statement was revised and can be found on the Adaptive and Inclusive Recreation Resources page.</p>
<p>2. Share the above statement with the Park and Recreation Commission to encourage consideration of the adapted programming lens when they're making decisions.</p>	<p>This statement was shared with the Parks and Recreation Commission at their November 16, 2023 meeting.</p>
<p>3. Investigate use of Tri MyRide Transit programming.</p>	<p>This service is provided by the Tri-Delta Transit program. Tri MyRide does not currently service the Brentwood area, however we have a large amount of seniors that use the Tri Delta Bus Service to get to and from the Brentwood Senior Activity Center (BSAC).</p>
<p>4. Ensure programming that's offered to seniors at the community center is considered for people that are more active so they have easier access to parking.</p>	<p>The only Senior Programs currently being offered at the Brentwood Community Center (BCC) is Boogie Nites, Single to Mingle and Book Banter. These programs are running at the BCC as the events/groups have grown too large to host at BSAC or due to timing conflicts with other programs.</p>
<p>5. Add definitions of Adaptive, Inclusive Recreation, recreation therapy, and therapeutic recreation to municipal code section 7.0.020.</p>	<p>Staff is recommending to add these definitions to the Activities Guide and on the Adaptive page online once we launch the new Adaptive Program. Sample draft included below. As these definitions are applied they can be modified and updated in alignment with direction of adaptive programs (and offerings).</p>

<p>Sample – Future Activities Guide: Adaptive Recreation Page</p>	
<p>6. Add links to the City’s website pages for: youth resources and adaptive resources. California Children's Services at DHCS.gov; Contra Costa County Senior Legal Services; Contra Costa County Bar Association; Contra Costa health.org/seniors, to be included in both locations on the website.</p>	<p>These resources have been added online on the Adaptive webpage and Senior webpages.</p>
<p>7. Ensure there are inclusive resources that are not only limited to young children, but for all age groups.</p>	<p>This is an ongoing task as we look to expand our senior and adaptive programming.</p>
<p>8. Assess the one acre open space parcel near Pioneer Elementary as a potential “All Adaptive Park.”</p>	<p>Included in the Capital Improvement Plan (CIP) 2024/25-2028/29, under the Future Improvements section there are improvements listed that are planned, but are currently unfunded.</p>

<p>9. Examine the accessibility at Veteran’s park including an accessible ramp to the play structure area.</p> <p>Veteran’s park Universal Abilities playground specification sheet online here</p>	<p>The Universal Abilities Playground at Veterans Park opened in February 2013. This unique playground, the first of its kind in East County, includes play equipment for kids of ALL abilities. Children with social/emotional, physical, sensory, cognitive, and/or communication challenges are able to use the equipment at this park. This allows children with disabilities to interact side-by-side with their siblings and other children on the same equipment. This playground promotes children of all ages and abilities to be as healthy and active as possible, regardless of any physical and/or emotional challenges they may have. There's something for everyone to enjoy! On December 13, 2023 a double wide ADA Accessible ramp install was completed at the “new” Veteran’s Park Playground (picture below)</p>

<p>10. Provide a cost benefit analysis between hiring someone in-house versus hiring an outside company to provide inclusive and adaptive programming.</p>	<p>This item will be presented to City Council on August 27, 2024. Please see Attachment 4 for full scope of cost benefit analysis between hiring someone in-house versus hiring an outside company.</p>
