"Art must touch our lives, our fears and cares – evoke our dreams and give hope to the darkness." - Fredrick Hart.

Art is such a strong element in our lives that can elevate our thoughts and bring positivity in our lives.

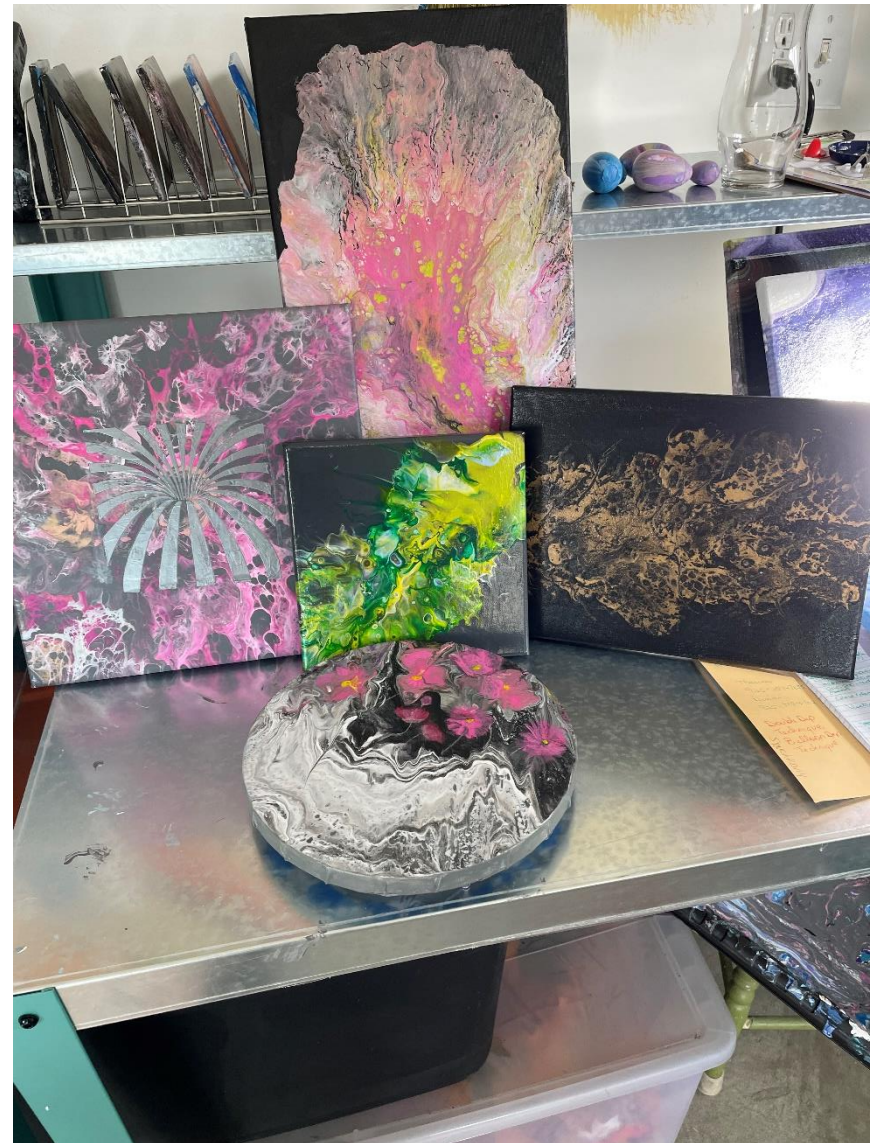

As an artist, my main goal is to capture the essence of the subject matter and translate it into a visual language that is both personal and universal. I pay close attention to detail, color, and composition, and always approach my work with curiosity and a spirit of experimentation. I am constantly pushing the boundaries of what is possible, and each brushstroke reflects my innermost thoughts and emotions to the final piece. My paintings are a mix of both deeply personal and universally relatable, expressing the beauty of the world and our unique perspectives. I celebrate this beauty in my heart, always striving to turn the ordinary into something extraordinary in my work.

For me it is a window into my soul, inviting the viewer to look deeper and discover the beauty of the world of art through my eyes.

About Me

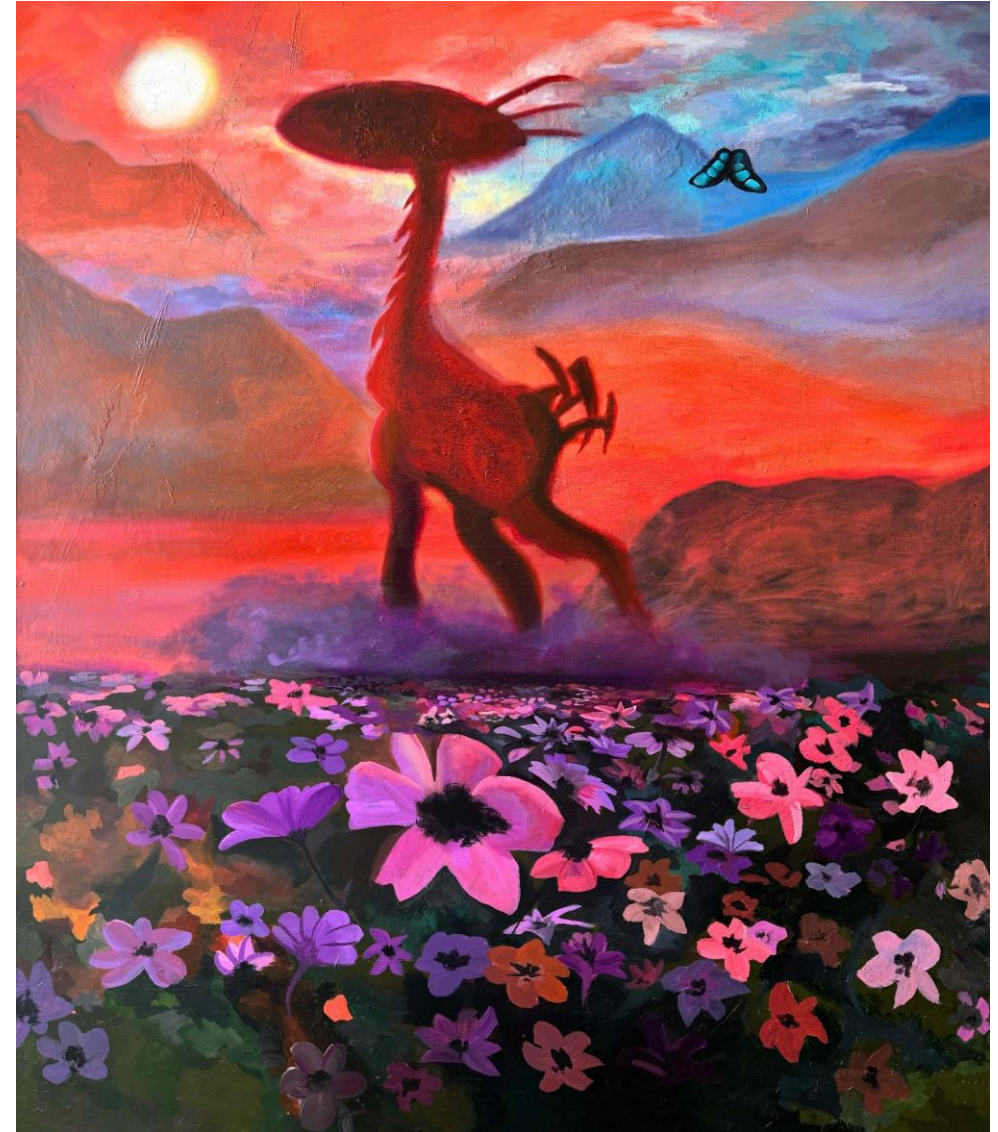

Hi! I'm Avalon, and I am an artist based in Brentwood CA. I have been painting for 7 years and enjoy drawing, sculpture and installation pieces. I love working on large scale paintings and search for collaborative efforts to enhance my own skill and others. I currently work at the P.A.I.N.T art program, where I mentor adults with disabilities in their artistic journeys. In my free time I love to sew, take photographs and craft.

Creative Influence

Growing up in the UK, I was inspired by the natural environments that intertwined with urban complexes. That worked its way into my art, representing the constant day to day life that tries to remove nature. However, it is nature always prevails in its growth, movement and influence.

Experience

Profile: I am deep soul he-artist who is constantly striving to let my inner spirit come out and play. I don't color within the lines, I don't cut a straight line, I don't follow the rules. I am Color of Woman Intentional Creativity® teacher, Yoga Nidra Facilitator and Reiki II Practitioner. These practices influence how I create. The way I approach art is through intention, having a conversation with the canvas, the found object, sharing who I am, my VOICE. I gravitate towards mixed media and found object art where I embrace Wabi-Sabi, the Japanese art of finding beauty in imperfection.
